

Knowledge and Experience – At Your Service

Blanco is an international data security company, which specializes in data destruction and computer reuse management solutions. Since its inception in 1997, Blanco has been fulfilling its vision to deliver world-class solutions to corporations, governments and computer remarketing companies worldwide. Headquartered in Joensuu, Finland, Blanco has proved to be the global specialist in the field of professional data destruction.

Blanco's advanced data erasure technology ensures the secure erasure of data from all types of hard drives enabling its clients to be in compliance with global security and privacy regulations. Blanco's solutions not only conform to the highest standards and regulations, but also exceed legislative requirements. Detailed gapless audit reporting provided by Blanco completely mitigates the exposure to legal liabilities or loss of corporate assets.

The company's main target segments are recycling centres, corporations/public sector and finance and leasing companies. Besides its 8 international offices, Blanco has partners in all continents and in more than 20 countries.
